Status: Downloaded newer image for hello-world:latest

Hello from Docker!
This message shows that your installation appears to be working correctly.

To generate this message, Docker took the following steps:
1. The Docker client contacted the Docker daemon.
2. The Docker daemon pulled the "hello-world" image from the Docker Hub.
   (amd64)
3. The Docker daemon created a new container from that image which runs the
   executable that produces the output you are currently reading.
4. The Docker daemon streamed that output to the Docker client, which sent it
   to your terminal.

To try something more ambitious, you can run an Ubuntu container with:
$ docker run -it ubuntu bash

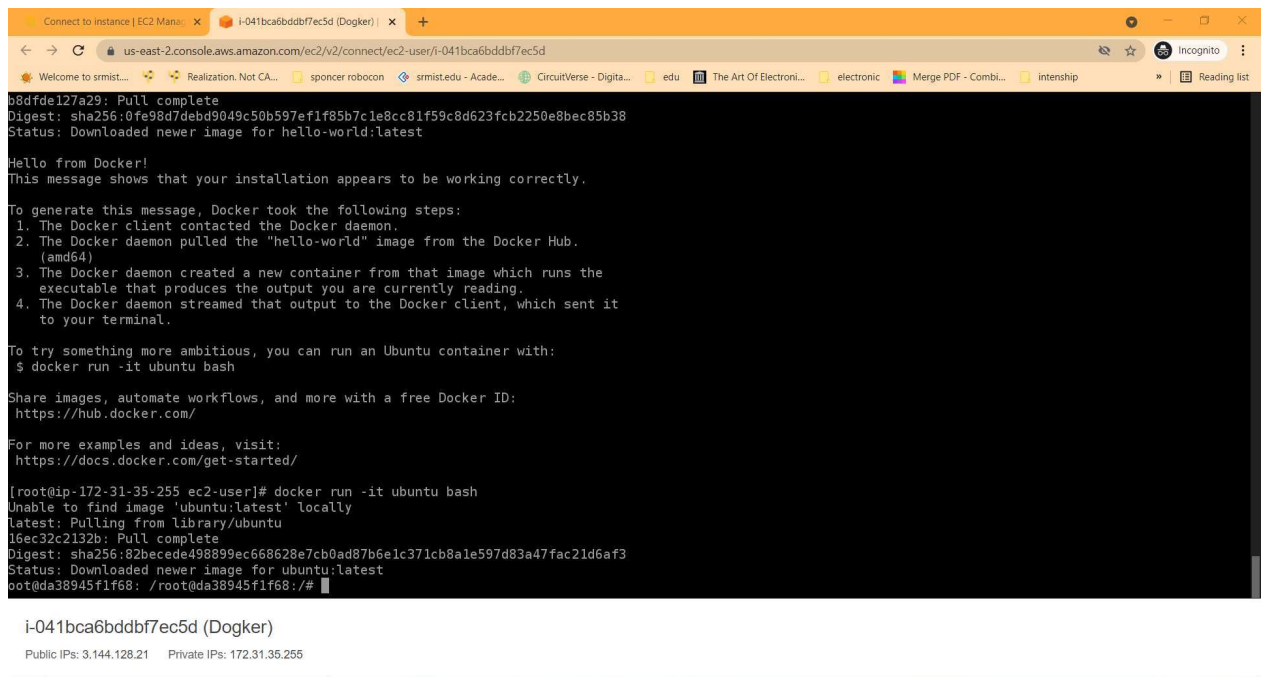

Share images, automate workflows, and more with a free Docker ID:
https://hub.docker.com/

For more examples and ideas, visit:
https://docs.docker.com/get-started/

[root@ip-172-31-35-255 ec2-user]# docker volume inspect
'docker volume inspect' requires at least 1 argument.
See 'docker volume inspect --help'.

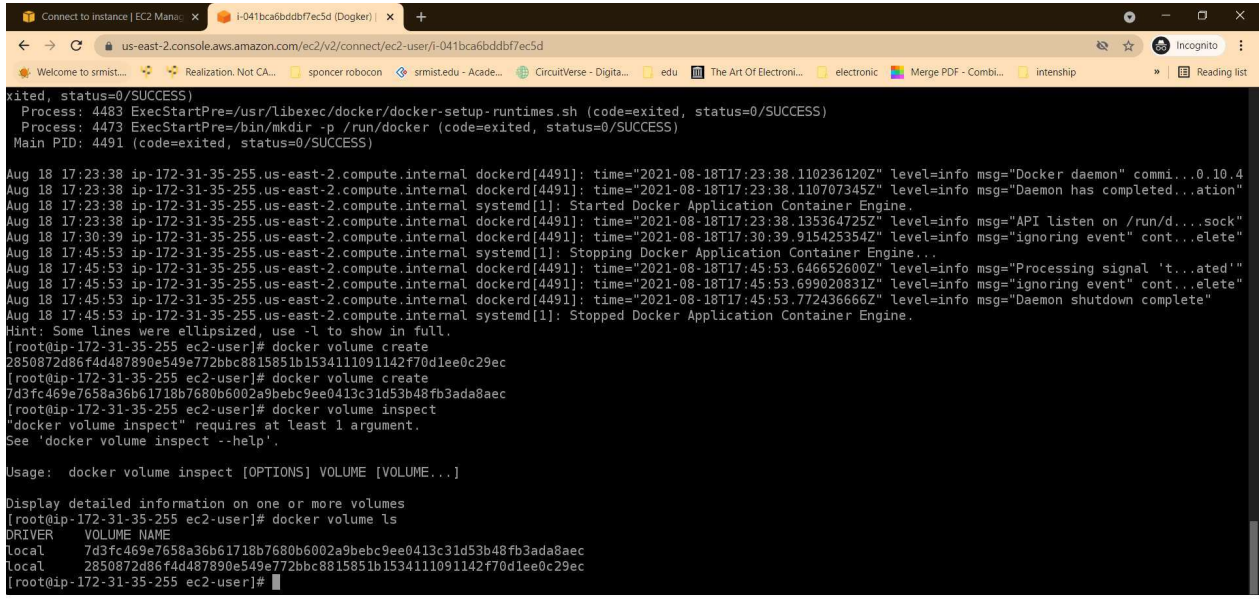

Usage: docker volume inspect [OPTIONS] VOLUME [VOLUME...]

Display detailed information on one or more volumes
[root@ip-172-31-35-255 ec2-user]# docker volume ls
DRIVER      VOLUME NAME
local       7d3fc469e7658a36b61718b7680b6002a9bebc9ee0413c31d53b48fb3ada8aec
local       2850872d86f4d487890e549e772bbc8815851b1534111091142f70d1ee0c29ec
[root@ip-172-31-35-255 ec2-user]#
```

i-041bca6bdf7ec5d (Dogker)

Public IPs: 3.144.128.21 Private IPs: 172.31.35.255

Docker volume inspect <docker id>

The screenshot shows a terminal window with a dark background. The top bar indicates the connection to an EC2 instance named 'i-041bca6bdf7ec5d (Dogker)'. The terminal output shows the following commands and their results:

```
Aug 18 17:45:53 ip-172-31-35-255.us-east-2.compute.internal dockerd[4491]: time="2021-08-18T17:45:53.699020831Z" level=info msg="ignoring event" cont...elete"
Aug 18 17:45:53 ip-172-31-35-255.us-east-2.compute.internal dockerd[4491]: time="2021-08-18T17:45:53.772436666Z" level=info msg="ignoring event" cont...elete"
